THE MASTER ACTOR

OBSTACLES

Obstacles are what stand in your characters way of achieving their Super Objective/Objectives.

There are 2 types of Obstacles.

1. Internal Obstacles

These appear in the form of Opposing Emotion and Conflicting Desire.

Opposing Emotion is when an emotion is present that runs contrary to your character achieving their Objective.

Conflicting Desire is when another Objective is present inside your character that clashes with your characters dominant Objective.

2. External Obstacles

These appear in the form of People and Physical Barriers.

People very often are who hold the key to achieving your Objective. They become an Obstacle when they refuse to give you what you need.

Physical Barriers come in many shapes and sizes (a mountain, a desert, traffic, a broken leg, a tornado etc.) They are what physically stand in your way from achieving your Objective.
