

THE MASTER ACTOR

PERSONALIZATION

Personalization is the act of finding the emotional connection and truth of the Given Circumstances within yourself.

The 3 techniques we use are;

1. Imagination

Placing yourself directly into the Given Circumstances and bringing them fully to life in you by simply dreaming/fantasizing about the details and conditions of them.

2. Emotional Recall

Allowing into your consciousness an incident/event that actually happened to you which emotionally mirrors the Given Circumstances and brings you to full connection and life.

3. The Magic As If

Using a corollary that matches the Given Circumstances to bring yourself to a deep understanding and connection by allowing yourself to explore the phrase "It's As If..."
